

AMI TRIVIA

AMI Trivia offers the ultimate trivia experience through a high-quality, commercial-grade media device that seamlessly connects to your TV or video switch. Through AMI Trivia, you can offer your guests access to a captivating world of visual entertainment without the need for audio.

In bars and restaurants, keeping TVs on mute is the norm. But it comes at the cost of a diminished entertainment experience. To make matters worse, your guests are subjected to an unfiltered stream of commercials, some of which may promote businesses, products, or services that compete with yours.

AMI Trivia doesn't aim to replace the game-of-the-week, or your go-to local sports coverage. Instead, it's an innovative solution that will engage your guests – especially when there's nothing compelling on cable or satellite. Instead of uninteresting sporting events or network television, offer your patrons an interactive and enjoyable trivia experience instead!

- Engage your customers in exciting trivia challenges, eliminating the need for tablets or other controllers. Players can simply use their own mobile devices to answer questions that appear on connected TVs, making sign-in and play a breeze.
- Offer something for everyone. With a robust lineup of 18 categories and topics, AMI Trivia ensures there's a game for every trivia enthusiast! Explore the other side for a complete list of categories.
- Tailor the experience to your customers' preferences by choosing from one of the many available game schedules.
